SETH MATARASSO, M.D.

With a personality that's as flamboyant as his academic reputation is stellar, Matarasso treats serious ailments (he's a Mohs skin-cancer surgeon) along with less life-threatening problems like wrinkles and lines. A master injector and the second largest user of Botox and Restylane on the planet, Matarasso delivers a natural look. He won't let patients look "overdone" or anyone walk out with a huge bill. That keeps everybody happy, including three Oscar attendees who, a week before this year's ceremony, flew in for line-smoothing treatments. *Dermatology Medical Group, 490 Post St., #700, San Francisco, 415-362-2238; www.dermsf.com.*
