

Wanna Fat Lip?

Teflon, collagen and even poison plump wrinkled facial skin and features

“Botox is for the top third of the face,” explains Dr. Seth Matarasso, a San Francisco dermatologist and one of the country’s biggest dispensers of Botox. “It greatly minimizes crow’s feet, brow furrows and forehead lines, but patients look natural and show full expression.”

PER VISIT*	DURATION OF EFFECTIVENESS	POSSIBLE COMPLICATIONS
10-400 visit	4 months	Can cause temporary droopy eyelids and facial paralysis

10-400 visit	3-4 months	3-5 percent of population show an allergic reaction
10-400 per visit	3-4 months, possibly longer	Probably nonallergenic
	3-4 months, possibly longer	Nonallergenic
	3-4 months, possibly longer	Nonallergenic

One type is made from cadaver tissue. More expensive methods involve taking collagen directly from the patient.
